

## A Better Man & Intimate Partner Violence

*"A Better Man documents a personal experiment for me and my abusive ex-partner — a step towards understanding and accountability. By getting closer to the truth of what survivors experience, and of why men choose to use violence, we can help stop the abuse. I hope that sharing my personal search for justice and healing will contribute to the struggle to end domestic violence."*

— Attiya Khan, Co-Director

For the screening of *A Better Man* we would like to provide a list of associations available for help in cases of domestic/sexist violence to share with our audience.

---
